"he is a member of a criminal and fascist organization that is guilty of centuries if it torture (the reputation) of millions of people, the exploitation of the population; and ill-treating. This organization, better described as Catholic Church, is guilty of permitting hunting and massacring amongst others. Jews in agreement with Hitler in 1934 to 45. Also the Catholic Church took an active part in the extermination of Jews. To the richest cynics among the fascists, they helped infamous 8 Officers, through Vatican scandals to escape after the Second World War to Latin America.

Today in June it is quite of maintaining contact with the Mafia; discriminating against women and homosexuals; exploiting judaism who practice forgeries; investing Vatican money (real black money) and the ownership of real property in Italy."

GREECE - Police Versus Anarchists.

In 1977 the fascistic government in Greece attacked Anarchists and the Socialist Party in opposition denounced the state. Now in state power the Socialists, in May 1985, have been attacked Anarchists themselves.

Anarchists in Athens and Thessaloniki were arrested by the police in the run up to the elections at which the fascists led by opportunists want to appear as the Law and Order Party.
INDUSTRIAL

MINERS

The NLC claim to have achieved 20,000 new coal jobs. Yet as the miners themselves have pointed out, the new mining areas are in the most remote parts of the country, away from the local communities. The miners are also concerned about the impact of mining on the environment. Many miners have seen their homes and communities destroyed by mining operations. The miners are calling for a moratorium on mining until the environmental impact is fully assessed.

Another major issue is the payment of wages. The miners are demanding a 40% increase in wages, but the mining companies are offering only a 10% increase. The miners are also concerned about the future of their communities, as many of the mining areas are isolated and lack basic amenities.

The miners have been on strike for over 100 days, and their situation is desperate. They are living in poorly ventilated mines and are working long hours in dangerous conditions. The miners are calling for solidarity and support from the international community.

In 1977 the fascist government in Greece attacked anarchists and the Socialist Party in opposition condemned the state. Now in State power the Socialists, in May 1985, have been attacked anarchists themselves.

Demonstrations against the authority of the state and the fascists who were banned and regular protests beginning at 3pm ended in violent clashes.

The shocking of one generator (still in critical condition as we write) has paved way for more actions. The buildings at Athens University where student anarchists have threatened to blow up the building those arrested are not released.
Brave Defender

MINERS

The NCB claims it has asked 20,000
union officials to attend an
industrial relations training course
before the strike. This is a basic
question of whether one party to
the deal or the other is prepared to
live with the other. The NCB's
position is that the miners must
accept a 'flexible' system of pay and
conditions, that the current rate
will not be changed without a
collective agreement and that the
payment of back pay is conditional
on the miners' willingness to
accept 'flexible' conditions.

Equity Now (At last)

Since 1968 (11 years) workers
across Britain have faced
unprecedented attacks on their
employment rights. They have
faced an attack on their pay and
conditions, and at a time when
they are ill-prepared to face it.

This is the only way to explain
the massive industrial action
which has swept the country in
the past week. The miners' strike
is the first in a series of strikes
which have swept the country.

We are not optimistic about the
prospects of a settlement
through the TUC. We believe the
strike will continue until the
miners' demands are met. The
strike will be on until the
miners' demands are met.
