COMMENT

SPY WHO CAME IN FROM THE SDP

The British Secret Service does not usually operate in the UK. Although many journalists and commentators have claimed that MI5 is responsible for breaking up the SDP and getting Owen Smith out of Parliament, there is no evidence to support these claims. The only evidence that has been presented is that Owen Smith was either a spy for the SDP or a spy for MI5. The government has been very secretive about this matter, and has not released any information to support these claims. The allegations of Wright and others are not based on fact, and are simply a way to accuse the SDP of being a threat to the country.
