**Political levy? Yes and no**

The traditional norms of capitalism imperil the working class. But the union leaders, who have often been at the forefront of the struggle against these norms, are now leading the fight for a new system of power. The IWA, as the world's largest independent trade union, is fighting for a new world in which the working class can again call the shots. **Barking Hospital Strikers Unbowed**

For 15 months the battle at Barking Hospital has been raging. The strikers have been fighting for better conditions and security for their colleagues. But the hospital management has been determined to crush the strike. What are the benefits of the Tory Party's new fascist trend? The intervention seems to be directed towards stealing or starving people. The Department of Health and Social Security (D.H.S.S.) is being monitored by left-wing groups, and fascists are present in the Commons. The next steps are unclear, but the large demonstrations by capitalists in the west are likely to be met with force. The government has already shown its willingness to use violence to maintain control. The future of the Tories looks uncertain, but they are likely to be in power for some time. The opposition is divided and lacks a clear strategy. The government's approach seems to be to divide and conquer, targeting individual members of the opposition. The media has been instrumental in creating a climate of fear and submission. The Tory Party's new fascist trend threatens to undermine the democratic process and lead to a more authoritarian society.
Tory Party's new fascist trend

Gummer, worried?

We did the research, and the facts are clear. Gummer is no friend of the poor. He has voted against free meals for schoolchildren, against free medical treatment, and against free education. His policies are designed to make life harder for the working class. We must stand up to this threat and ensure that the Tories are beaten in the next election. 

Steal or Starve

What will be the next victim of this new fascist trend? It could be you or me. The Tories are determined to cut benefits and services, and we must fight back. Join the campaign to Stop The Cuts and demand a fairer society.

Left Monitored

Your money is being used to fund the private police, who are targeting left-wing activists. We must resist this assault on our rights and demand a fully funded public police force. 

SOLIDARITY lives!

One day of action, two days of strike action. This is what we must do to fight back against the Tories. Join the strike wave and demand a better future for all. 

World News

In 1986, the German government was faced with a growing anarchist movement. The government responded with a series of measures to combat the movement, including the banning of certain anarchist groups and the imprisonment of leaders. The movement continued to grow, however, and the government eventually had to negotiate with the anarchists to achieve a modus vivendi. 

Social Struggles

Anarcho-Syndicalism

In the 19th century, anarchism was a popular political movement. It advocated for the abolition of states and the establishment of direct democracy at the workplace. The movement was associated with the labor movement and the working class.

In The Tradition

The First MayDay

The circle of May Day has been without result in the tradition of the freedom fighting for more than a century. The traditions of revolution and struggle for international solidarity are the recurring features of this historic holiday. The two ideas of working class people and the socialists have been intertwined for so long that May Day is now an integral part of the history of the struggle for freedom.

This year the L.A. and other syndicalists have been involved in the fight for the 20-hour week in Austria. This has been an important part of the movement towards international and solidarity consciousness of the working class. The L.A. has been active in the fight for the 20-hour week and is actively working towards the establishment of a 20-hour week in other countries.

At the same time, the L.A. has been fighting for the recognition of the Syndicalists in the International Union (U.S.I.) of the Trades and Labour Congress. In the past, the Syndicalists have been excluded from the U.S.I. due to their opposition to the T.U.C. and the recognition of the International Union (U.S.I.) of the Trades and Labour Congress.

The First May Day

One of the most important events in the history of labour and labour movements was the 1919 Chicago General Strike. The strike was instigated by the steelworkers and resulted in a defeat for the employers, but it was not a complete victory for the workers. The strike was a significant moment in the development of the labour movement in the USA.

The strike began on May 19, 1919, when the steelworkers' union, the United States Steel Corporation, went on strike. The strike was a result of the employers' refusal to negotiate a new contract with the workers. The workers were seeking an improvement in their working conditions and wages.

The strike lasted for 12 days and involved 300,000 workers. It was the largest strike in the history of the USA at the time. The strike was a significant moment in the development of the labour movement in the USA.

Barking Hospital
Strikers Unbowed

After 15 months the battle to save the hospital continues with picketing, occupation, and resistance. The hospital, the only one of its kind in the London area, is occupied by the striking workers. The hospital is being closed down by the National Health Service and the local council, who have agreed to hand it over to a private company. The hospital is the last remaining hospital in the area, and the struggle to save it is part of a larger campaign against the closure of similar hospitals across the country. The hospital is a vital part of the community, providing healthcare to thousands of people. The strikers are determined to fight for the hospital and its services, and continue to resist the closure.
