Every week more than 30 black people are deported or forced to leave this country as a result of racist immigration laws. These laws are the result of media hype and political pressure from neo-nazis and other racists in the late 1980's and 1990's, and of the efforts of the media and nationalist campaigns on the Tory far right. They are the institutional basis of racism which is still strong in spite of the demise of the neo-fascists from all but ghetto politics. This racism blames black people for unemployment, poor and scarce housing and health problems, and Indo-British kids for a fancy education.

The response of the Labour government has consistency increased its efforts to deport black people, from Britain and South Africa, who have done nothing to cause problems. This is a direct effect on black people because there is no sensitivity to the effect on black media elements that is too many of Nalgo's members. This response proportionately means black and other minority workers are members of trade unions that are in defensive campaigns, are the setting edge of make breaks and in anti-racetarian campaigns fighting the way in the labour movement.

 Political Asylum

Probably the biggest such campaign of the moment is the campaign of the Gaima Mariona from Mozambique who has lived in Britain since about 17 year Old. Quick from the time in Mozambique, Mariona has lived in Britain where he formed his own political movement, which she tried and worked in leading to the Labour government in Mozambique is a direct labour movement. The campaign is based on the fundamental principle that everyone has the right not only to demand civil, political and social rights, but also the right to be free from exploitation and the right to be free from human rights abuses. It is a programme that is based on the principle that everyone has the right to be free from exploitation and the right to be free from human rights abuses. It is a programme that is based on the principle that everyone has the right to be free from exploitation and the right to be free from human rights abuses.

In July, Thatcher stated in the House of Commons that sanctions against South Africa could only cause poverty and suffering for South African blacks. What the government is forgetting is that this is already the case. They are the victims of a capital, while making sure the sanctions will be empty about the possibility of putting away apartheid. South Africa is one of the most brutal regimes in the world, and it has created a system of oppression and exploitation.

On Wednesday 2nd August there was the first national postal strike for 17 years as anticipated in DJ 51. After a one day strike to protest about the introduction of the DRAS (Disruptive Removal of Stamps and Posts) a postal service to new recruits in the South East area. The DRAS system was the first move in an attempt to bring in office by post systems.

Mention was made to the unneces.

BOOKWORM REVOL
On Wednesday, 9th August there was the first national postal strike for 17 years as anticipated in DF. As usual the staff at the office were one of the first to arrive at work to protest about the introduction of the OCRAS (Digital Recognition and Classification System) payment system to new recruits in the South East area. The OCRAS system was the first move in an attempt to bring in office by office pay systems.

Meanwhile UCU News, Alan Tollett at the TUC, confirmed the possibility of other staff in other branches starting to make claims and could lead to a wider strike action. Postal workers on the other hand walked out because they felt their own strike had been broken, with many of them refusing to work under any circumstances. The postal workers were lead by a general strike of all workers. This act of natural defiance poured into the post offices.

The post workers campaigned back in the office. They were not prepared for the office strike as it was a one day strike. They had to work the next day without filling in forms or handing in cards. However, the management is only asking for the cards to be returned. The postal workers were lead by a general strike of all workers.

The second public meeting organised by Lewisham Against the Poll Tax began solidarity enough. We heard that the Labour Party and Lewisham Council are referred to as the Poll Tax and they confirmed their support for the working class claimants who have fought for their rights. The meeting opened with speeches from people involved in the campaign, and we were given an opportunity to ask questions and engage in discussion.

One speaker asked at just how the other local councils in the area were paying off their debts. The speaker said that they had no idea how the other local councils were paying off their debts. The speaker also mentioned that they were not aware of any other councils who had gone into administration. The speaker went on to say that they were not aware of any other councils who had gone into administration.

A speaker at the meeting raised the issue of the Poll Tax. The speaker said that they had been told by the council that they were not going to pay the Poll Tax. However, the speaker said that they had been told by the council that they were not going to pay the Poll Tax.

In order to stop the council from paying the Poll Tax, the speaker said that they had been told by the council that they were not going to pay the Poll Tax. However, the speaker said that they had been told by the council that they were not going to pay the Poll Tax.

The speaker then went on to say that they had been told by the council that they were not going to pay the Poll Tax. However, the speaker said that they had been told by the council that they were not going to pay the Poll Tax.

Two years after the Chernobyl disaster, the inquiry into the impact of the nuclear power industry on Government and the public has been subjected to increasing criticism. The inquiry, which was set up by the Department of Energy, has been criticized for its lack of focus and for lacking the resources to carry out a thorough investigation. The inquiry has been accused of being biased and of not being independent of the nuclear industry.

The inquiry has been criticized for its failure to address the issue of nuclear power's contribution to climate change. The inquiry has also been criticized for its failure to address the issue of nuclear power's contribution to the proliferation of weapons of mass destruction. The inquiry has been accused of being biased in favor of the nuclear industry and of not being independent of the nuclear industry.

PAIN IN THE BALLS

Two years after the Chernobyl disaster, the inquiry into the alleged pressurised Water Reactor (PWR) at the Pressurised Water Reactor (PWR) at Point C due to start on October 4th. Some groups, the Friends of the Earth, CND, Greenpeace Ltd, and the anti-nuclear groups, plan to stop the building of the reactor by contacting the streamlined inquiry with the CEBG. However, the inquiry system is still a rubber ring. The Government - designed to deal with the consequences of nuclear power - has been returned to a channel whilst the nuclear juggernaut continues to roll. The nuclear movement needs to start organizing effective mass direct action and industrial boycotts now if the nuclear ball is to be halted.

Recent Classic War sponsored a nationwide drive to safeguard the veiling local spheres by forming a passing club building but the committee established by Joe Sturmer with his power of the local council, the ex-leader singer and guitarist of the band, one of the last known of the Punk bands.

If the sight of Joe Sturmer was moving in the gap, especially at last, a was a good way of filling the gap and getting the public to the concert. The programme highlighted the problem of building the feeling of opposition brewing with the growing nationalities.

40W BULB

Readers of the July issue of Searching might be shocked to see a story claiming that National Front and Black Skin are together holding friendly meetings, to work on anti-jewish campaigns and implying that they acted together to bomb a synagogue. This story is untrue.

The National Front movement in the Sheffield story is the individual that National Front and Black Skin are together holding friendly meetings, to work on anti-jewish campaigns and implying that they acted together to bomb a synagogue. This story is untrue.

The fact is that both the NF and Black Skin have often come into conflict with each other. In recent years, for instance, the two groups have clashed at meetings in Leeds and Sheffield, where Black Skin members were accused of attacking and threatening to bomb the National Front meetings. In these meetings, Black Skin members were accused of attacking and threatening to bomb the National Front meetings.

Perhaps this and other claims are not true, but there are other explanations. The National Front have been known to have been involved in some anti-Semitic activities, but this does not mean that they are involved in any way with Black Skin.

CAVALIER ATTITUDE

Cavalier attitudes are far too many to their meeting in New York. Work meeting for the first time at the British Museum. The museum is a favourite place for the NF and Black Skin to meet. They have been known to meet in the London Museum and at various other places.

BRILLED PHOTO

Friends of the Sheffield story is the individual that National Front and Black Skin are together holding friendly meetings, to work on anti-jewish campaigns and implying that they acted together to bomb a synagogue. This story is untrue.

The National Front have been known to have been involved in some anti-Semitic activities, but this does not mean that they are involved in any way with Black Skin.
**SHOTGUN WEDDING**

This year the annual conferences of both NUPE and NALGO were to enter into talks about a merger of the two unions. Such a possibility seems almost inconceivable — One big Union for public service workers, which would then be the third such Labour union in the country. The present phase in the development of the trade union movement in the British bears a superficial resemblance to the first quarter of this century, when union amalgamations were also common.

A major difference is that the present amalgamations were of craft unions into general or industrial unions during a period of economic decline and depression. The earlier ones were the result of the voluntary action of the two unions concerned and were accompanied by a relative scarcity of industrial organizing. The present amalgamations are the result of government policy, with the present National Health Service helpfully financed by the state.

**NEW MODEL UNION**

In local government the merger movement is well under way, and the rank and file of the new fused unions are beginning to realize the fact that the old 'white collar' workers and job descriptions have been eliminated. The new merged unions have instituted a great deal of organic change, reorienting the union structure to cope with the realities of the present day. The structure of the new union makes the old NUPE and NALGO seem like a separate branch of the Labour Party, a separate branch of the Labour Party, and the old NALGO 'independent' workers. The new merged union is the product of a long and difficult process of organizational and ideological change. The new merged union is the product of a long and difficult process of organizational and ideological change. The new merged union is the product of a long and difficult process of organizational and ideological change. The new merged union is the product of a long and difficult process of organizational and ideological change.

A long history of struggle and other disputes have begun to eat out of class solidarity.

**DIRECT ACTIONNo. 52**

**'THE PEOPLE'S ARMY,' IRISH REPUBLICAN ARMOURY — PART 1**

During the past couple of years anarchism in Britain has been on the up. Many of the former British middle-class students have been involved in the 'New Left' movement. The 'New Left' is a political movement which seeks to replace the existing political system with a more democratic and participatory one. The 'New Left' is a political movement which seeks to replace the existing political system with a more democratic and participatory one. The 'New Left' is a political movement which seeks to replace the existing political system with a more democratic and participatory one. The 'New Left' is a political movement which seeks to replace the existing political system with a more democratic and participatory one.

**ARMED RESISTANCE**

The chief target of Republican movements in the 1970s has been the RUC and the British Army. The RUC is a national liberation movement and the British Army is a colonial liberation movement. The RUC's raison d'être is the recognition of the Irish people as a nation, and the British Army's raison d'être is the recognition of the Irish people as a nation.

The RUC is a paramilitary force, serving in the carrer of the police. Its members are drawn from the Irish people, and they are subject to the laws of the Irish Republic. The British Army is a military force, serving in the carrer of the state. Its members are drawn from the British people, and they are subject to the laws of the United Kingdom.

Both of these forces have a long and illustrious history. The RUC has been fighting for the recognition of the Irish people as a nation for over 100 years. The British Army has been fighting for the recognition of the British people as a nation for over 100 years.

**BOMBING STRATEGY**

Republicans usually reject all ideas of armed struggle as a means of achieving their goals. They believe that armed struggle is counterproductive and that it will only lead to more bloodshed. They believe that armed struggle is counterproductive and that it will only lead to more bloodshed. They believe that armed struggle is counterproductive and that it will only lead to more bloodshed. They believe that armed struggle is counterproductive and that it will only lead to more bloodshed.

The bombing campaign is a way of pressuring the British Government into withdrawing its forces from Northern Ireland. The bombing campaign is a way of pressuring the British Government into withdrawing its forces from Northern Ireland. The bombing campaign is a way of pressuring the British Government into withdrawing its forces from Northern Ireland. The bombing campaign is a way of pressuring the British Government into withdrawing its forces from Northern Ireland.
THE PEOPLE'S ARMY
IRISH REPUBLICAN
ANIM - PART 1

During the past couple of years anarchy in Britain has grown. The dispute between the British and Irish republican movement has become more violent. The IRA has been active in the British Isles for several years, but only recently have they started to attack the British armed forces. The British army has been caught up in this conflict, and the IRA have been attacking soldiers and civilians alike. The British government has been trying to appease the IRA by making concessions, but this has not stopped the violence. The IRA have been carrying out attacks on British soldiers and civilians, and the British army has been responding with violence.

During this period of conflict, a new generation of British soldiers has been born. These young men have been trained to deal with the IRA, but they are also facing the challenges of defending their country against internal and external threats. The British army has been forced to adapt to this new reality, and has been struggling to find a way to deal with the IRA effectively.

On the other hand, the IRA have been fighting for their freedom, and are determined to continue their struggle. The IRA have been able to capture a number of British soldiers and civilians, and have used these captures as bargaining chips to force the British government to make concessions.

The situation is tense and volatile, and both sides are willing to use force to achieve their goals. The British government is determined to maintain its control over Northern Ireland, but the IRA are determined to establish a republic.

The conflict is complex and ongoing, and it is difficult to predict what will happen next. The British government and the IRA are both determined to keep fighting, and it is likely that this conflict will continue for many years to come.
HEAVY METAL

Miners in Peru are battling employers who are fighting to get back the rights to judge strikes on the basis of report cards. The employers have managed to block any moves with the aid of the government. Consequently, striking miners are continuing to mine and are demanding the return of the miners' rights.

Meanwhile, miners in New Caledonia have approved a collective agreement offering the right to strike. The new agreement, which is expected to take effect in January, is the result of negotiations between the confederation of workers and the employers.

NORTH EAST

DOVER, KENT

P & O STRIKE SUPPORT

At the time of going to press the workers involved in the dispute had been on strike for 11 days. P & O, the ferry company, have, of course, refused to budge and the dispute shows no signs of settling down. The dispute has been going on for quite some time.

For approximately five months P & O workers have been demanding an increase in their wages and an end to the increasing cost of living. The company has refused to make any concessions, and the workers have been forced to strike.

P & O has taken the view that the workers are too demanding and has continued to refuse to negotiate with them. The workers have been left with no choice but to strike in order to keep their wages up.

Support direct action

A.B.C. (P & O) Support Group has been set up in order to help the people involved in the dispute. The group is setting up a central office to get information to everyone involved in the dispute.

Taxi drivers in Dover and Deal have been helped by the group. Anyone who wants to help should contact the group at their central office. The group is setting up a central office to get information to everyone involved in the dispute.

BECOMING AN ELECTRICIAN

The demand for skilled electricians is increasing, and the British Electricians' Federation (BEF) is playing a major role in training people for this important trade. The BEF offers a wide range of courses, from basic training in electrical theory to advanced courses in electrical installation and maintenance.

The courses are designed to meet the needs of employers and are offered at a number of training centres throughout the country. The courses are flexible and can be tailored to meet the specific requirements of each employer.

Dear Sirs,

As a member of the EDL (imperialists and fascists) and a resident of the Southwark area, I feel that I must write to you about the recent events in the area. The EDL, or English Defence League, is a far-right group that promotes racism and anti-Muslim sentiment. They have been involved in several violent incidents, including attacks on mosques and individuals.

I am appalled by the EDL's actions and believe that they are dangerous and divisive. I urge you to support the anti-racist and anti-fascist movement in Southwark and stand against the EDL and its rhetoric of hate and intolerance.

Yours sincerely,
[Your Name]

Remembrance Day Demonstration
Sunday Nov 13th
Central London

**ROCK THE BOAT**

Every week more than 30 black people are deported or forced to leave this country as a result of racist immigration laws. These laws are the result of media hysteria and political pressure from neo-nazis and other racists in the late 1960's and 1970's, and of the efforts of the media and nationalist campaigns on the Tory far right. They are the institutional basis of racism which is still strong in spite of the demise of the neo-fascists from all but ghetto politics. This racism blames black people for unemployment, poor and scarce housing and health problems, and Indo-British kids for a lousy education.

The response of the labour government has consisted largely in attempts to build support for a racist immigration policy. They have refused to take action against effective direct action against the anti-South African influx. They have taken no action against the anti-Indian influx. They have not even taken an anti-racist line on India, Pakistan or Bangladesh. They are putting pressure on the trade unions in an attempt to build support in the trade unions for a racist immigration policy. They have not even told workers that they have the legal right to refuse to work under a racist immigration policy. The government does not represent any class of workers, only those who are working for them. The government is not out to protect workers, they are out to make profits for the rich.

In July, Thatcher stated in the House of Commons that sanctions against South Africa could only cause pain and suffering for South African blacks, media hysteria and political pressure from neo-nazis and other racists in the late 1960's and 1970's, and of the efforts of the media and nationalist campaigns on the Tory far right. They are the institutional basis of racism which is still strong in spite of the demise of the neo-fascists from all but ghetto politics.
