

“Errico Malatesta has a special place amongst anarchist propagandists and theorists both for the remarkable lucidity and straightforwardness of his writings, and the practical aspect upon which his anarchism is founded. For Malatesta anarchism was not the philosophy for a future utopia that would one day happen, as if by magic, without any prior discussion or preparation. On the contrary, he was concerned throughout his life with practical ideas. His anarchism was something concrete, to be fought for and won, not in some distant future, but here and now.”

– David Poole
