BASTARD WATCH

AWESOME PROJECT

AWS for the fourth year running, the Autonomous Winter Shelter squats to house rough sleepers. This year, we give room and board to thirty-odd souls in a big cosy building some monks weren't using. And for this, the Catholic Church tried to evict us in court from "their" land, twice! I think they're ashamed of us, for doing their sacred duty. We'll take them all: queers, immigrants, addicts. We'll take them all, give them a warm bed and grub, then teach them how to "borrow" the Man's buildings. Go forth, spread the good word of St Crowbar, build a shrine or the holy barricade wherever you go!

Now we have something to ask of you, the beautiful crusty bastard reading this. The project wraps up around the start of April, and we'll lose the building around that time. I don't think the lawyers of the divine will be incompetent enough to get the hearing adjourned the third time. We desperately need experienced squatters, to show the ropes to newly formed crews and to crack a new place for the rest. If you aren't as seasoned, no worries: we always need volunteers willing to do a shift and pitch in however they can.

If you're interested, or you know someone sleeping rough who needs a bed, shoot us a message at 07394059246!

MANCHESTER SQUATTERS TAUNTED

On the 12th of February '26 a crew of Manc squatters were rudely awoken as 52 TAU officers came barging into their home. TAU decided it would be polite to better our comrades black and blue. Kidnapping them out of their gaff and exiling them out of the city on trumped charges relating to free Palestine activism. This is not something new, the squat lot have been targeted by GMP since 2023 after a comrades image was used to promote direct action without consent. Like a bout of a persistent scabies causing chaos in a polycole, Greater Manchester police won't fuck off.

AGMCAH

RAT ROUGE 2020-2025
I miss you my lil stinky man, slayer of site rats tamer of terriers. Mistaken for a meerkat by dumbfuck NET bailiffs.
Rest easy my sweet boy I know you're out there shitting on the souls of dead bailiffs and cops.

THERE IS MORE HOMELESSNESS THEN
AFTER THE BOMBINGS OF THE SECOND
WORLD WAR. IN THE SAME TIME THERE
IS NEARLY A MILLION EMPTY HOMES IN
ENGLAND AND WALES. OVER 1.6 MILLION
SECOND HOMES NOT INCLUDING THE ONES
ABROAD. + ALL THE EMPTY
COMMERCIAL BUILDINGS. ENOUGH TO
HOUSE EVERY HOMELESS PERSON IN
EUROPE. IT IS PERSONAL IT IS
POLITICAL. SQUAT THE FUCKING LOT
AND THE AIR-BNBs!

There's been a rat in Coombe House! A traitorous bastard of a sneaky thing, to say the least. After having him openly conspiring with the owner's lackey to make other people homeless and grasp total control of the building, we found him outside in the rain. Don't feel bad for Mr Soggy Sadsbags, he's busy dripping with entitlement and dribbly from suckling over-zealously on the teat of authority. He must've been hungry; licking the boots not of just the building owner, but doing the rounds of SNK too!

Poor scruffy shitebag; we've taken to calling him Richard the Turd (amongst other creative cusses) and kicked 'em back outside. Watch out though, we hear ol' Ditchy Rich isn't satisfied yet, and has crept over to another squat to haunt his partner's/mother's room.

If you see this disgruntled greasy stein pretending to be a squatter, caution is advised. We suggest pissing on his belongings and DO NOT LET HIM IN. He'll open your doors, invite the owners and security in, lie and cry to the police he'll call on you and then get his missus to have a moo at you as well!

BOUNCING BACK

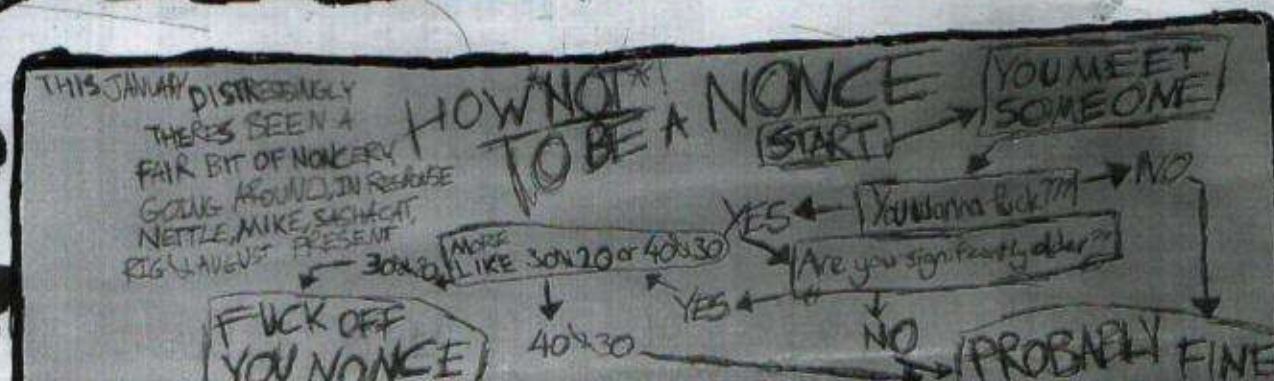

A pleasant evening in Whitechapel for ASS Benefit gig when more punks than you can fit in a pub came for a smashing evening and hardcore support for AWS and Ass tactic shows. Just as it was going so well, racist bouncers started body searching only the non-white punks. Jokes on them we can have a perfectly good time with tinnies in the street. In solidarity bands refused to play on, still hundreds of pounds were raised. Cheers for the event, next time another venue.

DIENS AROUND, EVICTION ATTEMPTS & REPS COOMPING BACK FOR MORE.

S&K enforcement goons came to evict Coombe House in Charlton, claiming to have a writ and that their very own S&K Brown (formerly and always of Bastard Watch) was the HCEO. Richard (of Bastard Watch) was waiting keenly around the corner with his bags ready to move back in once his buddy's from S&K had got rid of the riff Raff. Unfortunately for them, after a long stand off, S&K eventually backed down, saying it was too dangerous to attempt an eviction

because of our rowdy mob of supporters outside! (although we think the fact that they hadn't actually got a writ and we clearly knew, may have influenced their decision) Big up everyone who came to support and hold off the bayliffs! (update one more failed attempt from SNK with rooftop resistance where they admitted our victory. They did come back though and now Richard might have gotten his wishes of a building but no more friends. If you are in the area throw some rotten tomatoes at him!)

INTERNATIONAL NEWS

HOOGSLAND ARE WE GONNA EXPROPRIATE?

In January Amsterdam friends were turfed out by tax-evading alumnords, the Hoogslands. One person was arrested but released without charge

24th February saw fascists plant an explosive in the Victoire Liberty Centre in Thessaloniki, the successor to the Libertalia squats. Failing to blow up the space, the assault was part of a series of incidents of intimidation. In the words of the Victoire lot - "Crush the fascists in every neighbourhood"

In other Greek news, several Groups of Squamrades have been up in the courts this month for resisting police attacks on squats over the last few years. Dougrou Squat in

Lerisse was evicted in 2022 and Annex in Petras was attacked in 2024

HA46 HAS A20 STRESS

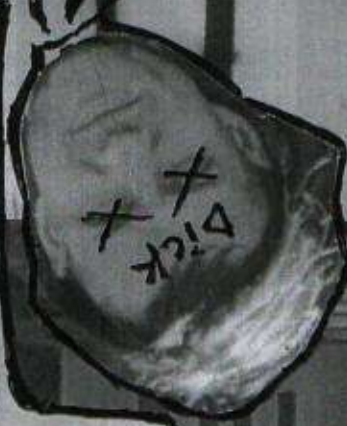

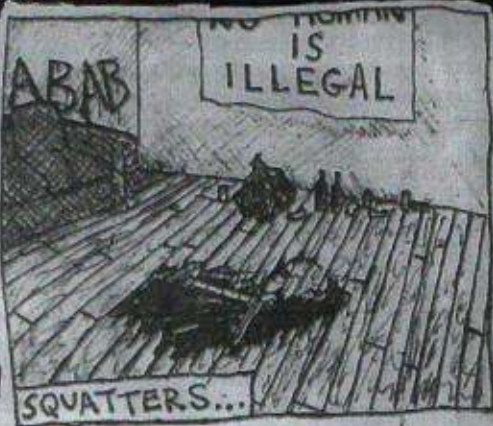

Habersackstrasse 46 in Berlin has been going strong 4 years now, and in November staged an anti-eviction demo for all to join. In January private security goons broke in and smashed up most of the flats as well as the water infrastructure. Despite this the crew refuse to leave. HA46 Stays!

SUDAN - WINTER IN THE DOCKLANDS

Assorted arseholes descended on a deserted docklands pub the other weekend for a free party in support of the Sudanese Anarchist Gathering. Good times were had, very little drama, great music, both from the bands and from the DJs. Even better unlike most London free parties there weren't 30-50 feral tweens ripped to the gills on Xans staring at the walls. Best of all over 1.7k was raised for medical supplies and body armor. Solidarity to our comrades in Sudan, if you want to actually know what's going on, find their newsletter and statements at: <https://ant-sit.info/category/antar/soudan/>

Big ups to the people who put it on, they're planning more nights so watch out for the next one!

PUNCHED IN THE BUT AS PUNK MUSIC

Straight from the squat scene to your local skeezy gig venue GUTTED are a new crusty punk outfit dedicated to playing banging tunes and drinking brews (after they beg a pint of you after their set)
They've already played some killer sets at the Nest and benefit gigs. Watch out for their next show! Put on your prisiest crust pants and get ready for the pit!

DEAR AGONY AUNT

Help me, agony aunt!
Can I morally evict bedbugs and does scabies have trawler's rights?
- I. Mitchin

Two points for you I:
1. Do the bedbugs do the dishes?
2. It depends, scabies aren't the best trawlers, they're more likely to call the cops! It's SCABIES not ACABIES!

Dear Dick,
He's just calling his boyfriends. He's in a polyamorous relationship with the Met police, SVK and every property guy in the neighbourhood south of the river. Seeing as he's in bed with them already, what use is his room at the squat? Show the love, Dick!

Dear agony aunt,
My squamate Richard called the cops again! What should we do?
- Dick Dover
