6th August 1985 HIROSHIMA DAY

SMASH SOUTH AFRICAN BUSINESS DAY APRIL 30TH 1992

FREE ALL PRISONERS

While the media machine glorifies the release of the Twa(T) hostages, speculates on the condition of Reagan's shit tubes and regularly covers pages with such drivel that I can't even bother trying to be funny about...

The media ignores, distorts, covers up, and generally apologises for the fuck ups of this society.

The only new buildings that I see been built nowadays are the monstrous mirror reflecting square boxes destined for 'office space', the trendy comfy homes in the docklands development zone (each flying a Barratts' flag) and the monstrous extensions on police stations, and on existing prison buildings.

Several statistics recently released by the government do not seem to have appeared in, or concerned the media. In 1985 the prison population reached two new levels. The total population is now, at 46,131, the highest it has ever been. Even more disturbing are the figures for remand prisoners awaiting trial, again the highest ever at 8,687. The ratio of remand to sentenced prisoners has more than doubled over the last eight years.

An amnesty or change in the 'lock them all up policy of the Tories does not seem very foreseeable in the future. Apart from a few support and pressure groups there is little interest in the rising number of people kidnapped by the state and shoved into prisons.

Another monstrous collection of statistics, are those relating to deaths in prisons. In 1984 there were sixty-four deaths, nine of these one in seven

were inmates on our own doorstep at Brixton. Five of these hanged themselves in the prison and the rest died from various causes in hospital.

The causes of death recorded on the prisoners were as follows:-

Natural causes30
Suicide(all by hanging....)	23
Misadventure2
Accident3
Open Verdict3
Awaiting inquest3
	64

The only reason we have these statistics is because some MP had to 'beg' the government in the House (the one with the nice clock).

However very little is made public about the circumstances of the deaths, and even the obvious alarming rate of suicides in remand centres is just ignored.

We are forgetting prisoners, put off and distracted by the sensationalist stories about Myra Hindy, orgies in Women's prisons.... There are over 46,000 people locked up like animals in cages.

If they die, then it's no problem for the authorities, because there are few people who bother to support prisoners.

CHOLESTEROL THREATENS KESTREL

SCARDATE JULY '85 BRIXTON.....

A lone kestrel is currently holding up the building of a new Tesco Super Store in Acre Lane.

It nests (the eggs have already hatched) in the garden of a squat which had been acquired off Lambeth Council for immediate demolition by the supergrocers. CROWBAR calls for nothing less than total support for our new mascot who CANNOT be allowed to end up ridgid on the meat counter.

NOW the oddest squatter that's causing a flap,
It don't live in a house or a Coouuncilll Flat!
It's got fevvers 'n a BEAK an' Bloody Great Claws,
And a Legal Defence to indulge in Class War!
Don't double the Dole or Graffiti the Banks,
Ain't never joined the Gluesniffers ranks.
Just darts about all over the place,
(Attacks flying pigs with effortless grace).

Judges decided, it was a great boost, Tesco's are wrong, and there you can roost! For with 'Buzzards Unknown' filed for a name, Barristers couldn't proceed with their game!

At Testico's Headquarters the Bosses had heard, That their Lordships would not destroy this Bird!

So they phoned up their old friend TED KNIGHT, To ask him to help them to RAZE the Site.

'No Problem!' Said TED 'I've some friends in the TRADE',
'ARDMORE CONSTRUCTION will shortly Invade,
'They'll dynamite the nest and the squatters as well,
'Just cut them in on your next swank Hotel!'

tweet-tweet', Rev. Armitage.

KIDS FACE TEDS' RIOT POLICE

NO NEGOTIATIONS- Despite pickets, letters, phonecalls, Co-op help, petitions, posters... NO MEETING, NO COMMENT.....GET OUT NOW! OR We'll smash your child care centre with sledgehammers'!!!!

That was the reaction of wonderful TED KNIGHT to demands that our childrens creche be licensed or given another space.

CRECHE DEMO ON TOWN HALL STEPS

This unbelievable fascism against women and kids helping each other comes from Ted Knight PERSONALLY (You asked for this TED!). The very same man who offered the creche another place to stop them disrupting his crepewrapping moment of glory with our banners and posters.

The possession order Has to be executed, the court case went through despite over 30 people turning up to protest. The borough valuers said they had acted on 'political advice from the very top'.

BUT WHY, WHY, WHY, evict a creche, and why will not one councillor or official even TALK to us !!

The truth is that our creche has been singled out in a personal campaign of

vindictive persecution by Ted Knight against local squatters (Most of the women and kids using the creche are not squatters at all!).

TED HATES US-He thinks the creche is all the idea of ex-squatters from Effra Parade, whose cottages were subjected to a violent eviction by 200 riot police (all to achieve planning consent on the vacant site for an Ardmere Construction cement mix plant! *not actually*)

Now they are continuing the persecution, 3 months ago, Ted personally ordered the creche to be transferred from Housing to the Borough Valuers Dept. The latter being under the firm political control of Ted since the expulsion of Nigel Baker.

But Ted is attacking the wrong people The building at 24, Brailsford Rd (5 years empty!) was used by the squatters as a cafe last year but this failed and they offered it to a local mothers group who were desperate for a child care centre.

WHAT YOU CAN DO PHYSICAL RESISTANCE.

We hope our 'Moles' in the council will warn us of the eviction in advance. If so everybody will be told. The riot police will come at around 4 or 5 A.M. and we hope that everyone will be out on the streets. More volunteers are needed to stay in the place itself. There are plans for a network of safe houses where you can run during the baton charges as well as escape and attack routes through gardens and over roofs. If we have warning all access roads and the park entrances will be blocked off with vehicles and barricaded before the riot police arrive. The press, radio and T.V. have said they will be in attendance and local doctors and hospitals will be warned.

THE ALARM

If we don't get warning the first we may know is that look outs have spotted police convoys approaching the sleeping community and our horns will go off and door to door warnings will be given to our supporters. The telephone alarms will operate to inform all other London squatters, as well as the media. We need more volunteers NOW! TO PERFECT THE ALARM...and to work on detailed resistance and retaliation plans.

SAVE OUR CRECHE

CONTINUED
FROM
PAGE 3.

So now bailiffs and riot police are being used to storm a CRECHE!

(FACT: 95% of local residents have signed a petition demanding that the crèche be spared the 'Effra Treatment').

FEELINGS are running VERY HIGH, and for the first time, the entire community are united, old and young, black and white against the Jackboot tactics of the council. THE SAME COUNCIL who plaster the area with propaganda that THEY CARE about LOCAL opinion! The council will not back down. All avenues for lobbying and campaigning

SAVE OUR CRECHE

have now been exhausted.

IT REMAINS FOR US TO PHYSICALLY RESIST. Extensive preparation have begun and local youth are ready to go for a full and extensive riot!

WE'RE READY FOR YOU THIS TIME, TED!

If that's what you want—send in the riot police, dogs, teargas, rubber bullets.... Whatever you like!

Ted Knight is already a considerable local 'fixer' for those in the construction business.... Will he now end his 'Official' career by starting the 1985 Brixton Riots from a toddlers creche????

LILFORD BLUES

Lambeth Councils 'socialist' principles are now being stretched to include making people homeless in order to allow private development. In Lilford Rd., a stones throw from one of the brand new pre-fab high-security housing offices a terrace of attractive houses, squatted for six years, are under threat of eviction.

And, what are the council going to do with the houses? They haven't got the money to do them up, so they can't even pull their usual trick of throwing single homeless out and putting in new single homeless from the bottom of the waiting list. So, they're going to sell the houses to property speculators, no doubt so they can be modernised, and sold at a profit to some upwardly mobile trash.

At the moment, the squatters are trying to negotiate an alternative with a housing co-op, but if this is not successful, they are determined to resist this backdoor Toryism.

TED KNIGHT-THE MOBSTER

So, that bastard Ted Knight is now the darling of the left, having fought the good fight against ratecapping, and taking longer than anyone else to sell out. Well, big fucking deal!

As well as being up to his eyes in corruption, lining his pockets with backhanders from Construction firms (Ardmore being one), this hard line lefty shithead also has the responsibility of investing Lambeth councils Pension Funds!!!

(A bit like asking the Kray twins to baby-sit!) So how does he invest this money, we ask ourselves? Well, this champion of equal opportunities puts £25.3 million into companies with South African holdings, about 60% of Lambeths assets in dirty companies. The rest of the money goes into military engineering companies, and nuclear power. Lambeth is a 'nuclear free zone' ha ha. Also, what sort of support is that for the miners cause, by undermining their livelihoods, not to mention the ecology? Theres not really a lot else You can say about it, 'cept that it's no big surprise..... Ted, you fuckwit, why don't you just crawl off somewhere and die???

CAROLS CAFE

Camden council want to evict Carol's to give a lease as a commercial premises to a 'worthy group'. The labour group met and decided to lease the place to the 'Womens Health Group' who incidentally reckon they are going to come round to get the keys!!!???? This is not a full crucial decision and there is still loads of fighting between above group and others, like the Lesbian project, who want to buy the place (..) with a G.L.C.-grant

We are fighting back and are not going! (note: it is not uncommon to play out one community group against another, fight all the scabs and sell outs who are into playing these power games. typist)

SOUTH AFRICA

WHICH SIDE ARE YOU ON?

Yesterday they killed 3 kids, the day before 8 got blown to bits...Tomorrow there will be funerals and more will die...These are the heroes who are taking on the South African war machine on the streets of the dusty ghettos.

BUT THE WAR IS HERE AS WELL! Last week the Anti Apartheid offices were firebombed in London, obviously by BOSS agents. In fact Britain is just an extension of the South African economy - Britain is the main customer and investor..the main profit maker from racist rule, slave labour and cheap resources ripped out of the earth. Britain is buying and selling race war and mass murder, laughing all the way to the banks of our rich masters..ITS ALL TRUE AND HARDLY EVEN COVERED UP! What we raised at the one-off Live Aid concert they take back out of Africa, and more, EVERY DAY OF THE YEAR. Money off your taxes, money going into your dole!

The war is here and now..Which side are you on? A kid in Sth Africa can lose his/her life for chucking a stone..but YOU have 1000 targets, State Property and Sth African connected businesses, right on your

doorstep. NOW is the most vital time to hit back, even if its only graffiti it costs them to clean it off.

You British bastards! You fucking smug racist imperialist BASTARDS. War is declared on the whole Sth African black population..And in Britain??..An "upsurge in racial incidents" is reported!!

Show your solidarity, show your fucking humanity! Lets all JOIN IN THE WAR TONITE!

SOUTH AFRICA

The Anti-Apartheid headquarters in Camden Town was damaged by a mailbox firebomb on the 16th of July. Someone had been seen putting a tube in the mailbox at about 11pm. The papers reported it as someone pouring petrol into the mailbox. A reliable source said "Agents of South Africa acted because the Anti Apartheid campaigns were too successful recently". National news coverage of this act was late and minimal, even though local police finally admitted that the South African Gov.t. could have done it.

Aunty Annie

Dear Aunty,
I am a young rioter and looter, I want to be prepared for the next outbreak. Any hints?
Subversive of Lewisham

Dear Subversive,
When a riot starts all the coppers rush to that area. First thing is to spread it. Try setting a rich car alight, in a different area. Stay in a group and keep moving. Smash a few windows in the High Street and run. The cops will open a Special Riot channel on FM, so listen in! When the rioting spreads all over you can loot to your hearts content — have somewhere handy planned to move the stuff. If you get caught, always plead not guilty and ask for Jury Trial, this takes about 6 months and you'll probably get off, when the prison are full up and temperature has cooled off.
Happy rioting — Aunty Anna.

★★★★★

Dear Aunty,
I am a young anarchist, rioter and squatter, but I am unhappy with my life. What I really want is a revolution. Am I right?
Bored of Brixton

Dear Bored,
Of course you're right. Riots aren't enough. But you have to spread your ideas, of local co-operation, peoples councils etc. Only then can you start mass occupations and take-overs of factories. It's a long battle, you need not one but many no-go areas if you are going to beat the cops and army. Remember — never allow leaders or lefty groups to manipulate you, they just want to grab power for themselves. You struggle looks uphill — but with any luck the whole system will fall apart.
Mutual aid. Aunty Anna

DIRTY FILTHY SQUATTERS

Maybe you think that all Crowbar readers are dole scroungers, deviant subversives, social waste products living in the rubbish dump of bourgeois society. Not a pretty bed of roses...we are under constant attack, lots of us get dragged off to prison, suffer mental crackups, turn into junkies or, even worse, trendies! Most of us are forced to do shitwork on the side, to add to the miserable pennies of the dole...

They're cutting the dole again, of course, they've been cutting off and deporting 'foreigners' and closing the marriage loophole for women as well. They're trying to cut off squatters electric, they're trying always to evict, they've cut out rent fiddles, now they want to take 'bills' money straight from our dole (we could end up owing them money every week!). They're cracking down on double doles, handing out prison for shoplifting, stepping up cop surveillance and phonetapping, (lucky we've no phones!), instituting Community Grass schemes. They're encouraging racism, sexism and drug addiction, and cutting back health care....

And in reply...WHAT?.. Of course we do fight back, we know of a 1000 dodges, and a 1000 little revenges. But to really fight back we need to combine, and for that we need our own identity...Maybe we should be proud to be squatters, unemployed, social 'failures'.. Maybe we should have our own movement, not just for 'Politics' but for practical mutual aid. For instance, if you organise with 5 people you can trust, to sit down and exploit the SS and every loophole in the system, you can quite safely get back twice the cash and make monkeys of the Social Wankers!

But maybe we shouldn't be thinking in terms of 'Work' at all...All people really want is enough cash to live

on, and then to go about doing what they really enjoy! (If we can decide what that is). For instance in our area we've had (at various times) a squatters bar, a food co-op, a squat caff, 2 libraries, lots of papers and mags, a bookshop, studios and dark rooms, collective tools (didn't work!), an @ group, people who help with electrics, plumbing, roofing etc for cheap or free, a squat advice centre, an alarm network, a squatters creche, local games, an @ syndicalist group, a miners support group, public meetings, a layout room, a bicycle workshop, a squatters nightclub etc etc.. And we're just a few people in a small area.

The point is this...If we can combine together to resist all the attacks and the Daily Bullshit, there's still lots of possibilities here to do things which we actually enjoy and which benefit each other..No profit involved..instead of boosting some Party seeking power or some Pie in the Sky. Of course the more we organise ourselves, the more possibilities we have. That to me, here, is what @ is all about.

Sorry, not many recipes in this issue, I've run out of inspiration this time. If you've got any going spare, please send them to me and I'll stick them in..... What I'll do in the next couple of issues is run a serialisation on lock picking. I've already touched upon the subject, but this will be pretty comprehensive stuff, and well worth learning, until then, keep out of mischief, (ha ha),

Happy Hunting,

LEKKY

fiddling!!

CROWBAR EXCLUSIVE

Recently in Lambeth there has been an alarming increase in the number of squats that have had their electricity cut off from the street. This is a real pisser, as it means that no-one else can move in the house. It is really unnecessary that this sort of shit has to happen, and even though the price of electricity is so high, with the amounts of fiddles going around you'd think that people would have their acts a bit more together.

So for the benefit of y'all, here is the simplest fiddle I know.....

All you do is to unscrew the screw marked in the diagram, not all the way out, but just until the wheel stops turning round. (Screw anti-clockwise).

Once again, ALWAYS use a mainstester when fucking about with mains lekky, if you don't know what you're doing, then get someone else to do it. ALWAYS keep a note of the number on the dial, and by finding out the unit price, you can decide exactly how much you want to pay.

If your meter is under the stairs, make sure that there is a padlock on the door. When they come to read the meter, just say that your friend has the key, and could they come back in half-hour? (By which time you will have straightened it all out.)

If your meter is on the wall, build a cupboard around it, and put a lock on the door, using the same excuse.

The screws under the meter are covered with a small plastic top, which is held in with a screw and has a lead seal through it. The meter readers very rarely check this, especially in a dark cupboard, but to be safe, you can replace the seal by pushing it back through and using superglue to rejoin the wires.

There, you've just saved yourself lots of money!

Another problem with lekky is getting an account without having to pay £100 deposit. It helps if you can have a reference from a good payer to smooth things out. So...when moving into a new squat, open your account with about 4 false names. Provided your bills are paid, you can give these names to other squatters to use as their own, simply asking to change their address, with a new account. Geddit?

Happy fiddling,

Moriarty.

MET POLICE BUNKERS

*WHERE THEY ARE
HOW TO SABOTAGE

The Metropolitan Police's War Command is based at two bunkers, one at Lippets Hill, Essex and the other at Mersham, Surrey.

Lippets Hill is the main 'Live' bunker as well as the main Met Police Helicopter Base. Its from here that the Nuclear Police will coordinate control and the wiping out of resistance during a war or serious uprising. Its based on an old AAOR bunker, built just after the last War, and includes an arms dump, supplies, low frequency microwaves linking to the police, army and NATO systems, and firing ranges where the police are trained to use automatic and machine guns, etc. (You can hear them blasting away any day).

Lippets Hill is Scotland Yard North, a futuristic police HQ designed to withstand even a Nuclear Blast.

LIPPETS HILL. Scotland Yd. Nth. Bunker & Chopper base.

Aerial and bunker behind.

Firing range building.

Helicopters.

CHOP THE CHOPPERS

To get there you'll need a map, (Landranger No.167) and you'll need to get to know the thick woods surrounding the base and have good escape routes worked out. Dogs are usually loose inside the perimeter fence, and these would have to be dealt with. The easiest project would be to sabotage the 3 helicopters, but you will need an experienced team working at night, and there is a chance of getting shot! The bunker itself is guarded and in constant use. Perhaps the best possibility for attack would be the air vents, if you can get at them behind the massive blast shields, (see photo). Dropping in open gas bottles or pouring in inflammables could clean out the nest. The firing ranges are not used at night, but presumably the armoury is well guarded.

MERSHAM. Scotland Yard Sth Bunker, from M23.

CROWBAR EXCLUSIVE

Scotland Yard South, War HQ, at Mersham is a much easier attack proposition. There is no helicopter base and the bunkers are in reserve, though full of gear and regularly patrolled. You need a map (Landranger No.187) but you can see the main building from the M23, Northbound, just $\frac{1}{2}$ a mile from the M25 intersection. (One purpose of the bunker base is to close motorways in time of impending war). In fact miscreants have already attacked the Mersham base, smashing the small aerials and painting a huge peace symbol on the roof.

HOW TO BREAK IN

Crowbar can reveal, however, how to get right inside, to give the huge bunker a real trashing. All you need in fact is a 15 ton bottle jack, placed under the lower left hinge of the main steel and concrete door. Though the blast doors weigh many tons the jack will just lift the hinges right off and prise them open! This technique can be used on all the old

AAOR bunkers (there's hundreds about, spot them by the 'windmill' aerial towers or the distinctive little block houses, see photos).

Why should the Met police have nice bunkers to go to while we are expected to fry? Why should we let them prepare for Civil War and mass repression? Lets mount an all out attack on them NOW, before its too late!

We hope to have more EXCLUSIVE revelations soon from Crowbar's top mole in the Home Office.

Many thanx!

NEWHAM SEVEN

Congratulations to the freed members of the Newham 7. We hope that their comrades who were found guilty of defending their community against nazi lowlife and scum will get unbelievably light sentences.

It's no surprise that the filth are even now trying to pretend that the Aisians burnt to death in Ilford were not the victims of a racist attack. The Yard's 'new approach' to racial attacks in London is to deny they occur.

Can you imagine the response if whites were living under seige by blacks? Shoot to kill; probably. Yet when its the other way round, cops and councils alike just ignore the problem while the media maintain their bigoted silence.

Stop Business As Usual

Reports are still trickling in of the World wide Stop Business as Usual demo on 30th April. Crowbar seems to be the only paper trying to cover all the actions..which we think is shit. SBU is a brilliant idea, and an essential way forward for an Internationalist @ movement. The idea is for everyone to do something in their own area..however small.

We would like to take up the suggestion from Dublin that the next SBU should be on NOV 5th 85. So can everyone start publicising that date now?

In the last issue we printed reports from London, Nottingham, Luton, Newcastle, Bristol, Ashford, Norwich, Bedford and Hastings in the UK, as well as hundreds of actions in the USA. Here's some more....

STOP THE WORLD

TORONTO..

Small group actions reported on April 30th. But no details.

MADRID.

Two groups of 10 toured the centre, graffiti-ing and glueing up locks on banks, about 50 or 60 of them.

BARCELONA.

About 30 people, mostly from the squatters collective (now dissolved) disrupted McDonalds and other burger restaurants, letting mice loose.

PAMPLONA and PALMA DE MALLORCA.

Actions planned but no reports.

BERLIN.

The SBU group were followed by police, and nine people were arrested before anything happened at all. Further Ekonomia report lost.

STOP THE WORLD DEMO

AMSTERDAM.

4 main attacks. An office of Honeywell Bull got broken windows and graffiti. People climbed on the roof of the Sperry building (arms dealer) and poured Ammonia etc in the air conditioning and made a leaflet about it. Comprimo (a nuclear company involved with Sth Africa) got smashed windows and paint bombed.

EDE. (Netherlands) 30th April.

Upjohn, a company which 'dumps' useless medicines in the 3rd world was raided.

DELFT (Netherlands) 30th April.

A luxurious supermarket, the C1000, was paintbombed and graffitied.

Back in Amsterdam, there was extensive city centre graffiti (2 arrests), for example.. 'Shell, Oil from Hell' and on Bank of America.. 'Multinationals dont burn down by themselves.. Help Them!'-.

DUBLIN

'the Dog' reports that a grand total of 29 rich cars were damaged in the area around the Shelbourne Hotel and associated posh Clubs. Jags, Limos a roller and a Porshe made up the days tally! Other sufferers included many shops, especially butchers. The Dubliners are keen for another SBU, and would like to suggest NOV.5th for our collective consideration...This does make things a little tight for Crowbar groups as our autumn firearms training camp finishes only the day before in Malta...But we'll DO OUR BEST!

NOVEMBER THE 5TH???

We think Stop Business as Usual is a brilliant idea, very few arrests, lots of action and people taking part. The idea is to attack or expose the arms race, big business, oppression, animal suffering, sexism, racism etc. in YOUR OWN AREA, to get people aware and acting against it on their own terms.

So lets do it again...NOVEMBER 5th 85?? How about it?

If everyone who took part last time does a few hundred leaflets and distributes them, it could be twice as big as April 30th. Especially if other papers will support the idea.

STOP THE WORLD

Dear CROWBAR,

The overall response to S.B.U. seems to have been pretty good! Enclosed is a letter from Aberdeen saying what went on there. Next time with better organisation and publicity a lot more could be done.

I must admit I was a bit peeved that only yourselves and Black Flag actually publicised it - there ought to be a lot more 'coming together' with the @ papers with regards to events. Class War flogged 9000 copies last issue so why the fuck was there no mention of S.B.U. in it? The same goes for Freedom, although people have more sense these days than to waste their time reading that pile of shit!

We are presently working on the new Timperley Village Anarchist - and it's miles better than the 1st Issue - and we've decided to write it in a manner which non-anarchists can relate to. (Oh, have we now! Typiste.)

Incidentally, I know that Copernicas was supposed to send us a car soon - and she aint sent it yet so if you see it can you tell him that our ELITE DEATH SQUADS will be dispatched unless something is sent within the next week.

Incidentally, the ALF recently did a brilliant 'trashing' on 'RACKHAMS' in Altringham - they smashed 5 fucking huge windows, must have cost a bomb and it really upset the local petty bourgeoisie scumbags who have a tendency to infest the shithole in question. Looking forward to reading the next Crowbar. love @dam.

And up and over in ABERDEEN, we understand that the local Job Centre had it's window bricked along with a long trail of glued-up locks and a picket of a fur shop. - on 30th April

TUESDAY APRIL 30 1985 Butchers and fur shops hit in vandalism

Dear CROWBAR,

Your incitement to desecrate the memorial to Yvonne Fletcher is too much. Dare I recall that she was gunned down by one of Gadaffis thugs while protecting a student demo against that masturbatory pseudo-revolutionary dictator? Or that the Police are also proletarian! Specifically that part, the proletariat who are employed to keep the rest of us in line- yet none the less open to a class analysis of their situation, and to be open, not treated as enemies. Politics is not football, simply the matter of right symbols and the colour of your shirt! What matters is the form, not the content. And while we are about it- what was that fascistic nonsense about vigilante groups and castrating rapists?.....

TYPIST : theres lots more of this drivell, but the typist can't be fucked to write it out, this shit really pisses me off,

CROWBAR says: what a load of bollocks...a cop is fair target, no matter what. They are our natural enemies and I won't be happy until every last one of them is dead. Fuck the class analysis, once a cop is a cop, then thats it, they have chosen to stand in the line between us and the rich bastards, and deserve what they get. Same goes for rapists, judges, politicians, screw-s and fascists. Right, got that off my chest.....

HIS MASTER'S VOICE

Dear CROWBAR,

JESUS! Did you SEE that fucking Labour Party Political? The one with fucking Billy Bragg? THE BASTARD! I used to like his stuff- but now he can go strum a dead cat. HOW THE FUCK can someone who did all those miners benefits put any faith in shitface scab Kinnoek? And what about Jimmy(Mr Potatohead) Somerville? THAT BASTARD KINNOCK HATES GAYS! The only reason he doesn't call them fairies anymore is cos he's realised he can't catch it from ballotpapers. WHAT A BUNCH OF COLLABORATORS!! And as for Aswad, words fail me, I know its tough in the reggae world right now, but did they have to stoop so low for airplay? DID THEY ASK KINNOCHIO ABOUT BLACK SECTIONS? Well, if rocknroll is about getting a place on a fucking stupid electronics course and voting Labour out of dog-like gratitude, if rocknroll is about Kinnoek instead of Thatcher, FORGET IT! Lets all just give up and buy Bruce Springsteen

KILL THE QUEEN !

Dear Crowbar,

I am enraged to see the magazine getting so tame and complacent..Wake up for fucks sake and just say what you think!

Where, for instance does Crowbar stand on the question of the Royal Family?? Do you agree that they must be slowly tortured to death in public, or have you gone over to the Reformist 'hang them in a back yard' brigade. And whats all this about 'surplus private property'?? Its not just a matter of the guy who owns 20 houses and lives off the rent..What about my squat mate who keeps his fucking stereo locked up in his own room!!

Lets get down to the nitty gritty. Lets make a start by murdering all the rich parasites who live in luxury off our backs! Print this, bastards, or go on my personal death list!

A KILL FOR COP CHRIST!!

11.00 o'clock on a Saturday morning, and I am driving a full vanload of anarcho punks to Henley, ooo what a hell of a hangover! We arrive at the turnoff..the smallest back route we can find, 7 miles from Henley, and there's a cop car parked by the entrance..A quick detour round the lanes and we're past them without being clocked..We assume the main roadblocks are further down..Fuck this! They're bound to nick us and the van, as at Stonehenge..And the rumours, 2000 pigs waiting for us, searchlights, dogs, marksmen, army alert, dragging the river for 6 weeks before....

This, I was thinking, must be the most suicidal Stop The City yet, courtesy of Class War. In fact this was worse than the 1st 2nd and 4th STC's, I had seen no organisation meetings, no patient build up of networks and trust, no meetings locally, no benefits, no meet up points, no legal briefing, no creche. All they seemed to have done was print 1000's of leaflets and to brilliantly and successfully court the National media.

I had a hangover, as I say, driving into Henley with everyone flat on the floor...Then we were right in Henley, no blocks, and parked and unloaded with no problem at all! Meet at 6.00 we said, and split up.

I walked around Henley with a pretty smartly dressed friend...and I was sickened, shocked and intimidated by what I saw. The police we had expected, wall to wall pigs of every possible stripe, perhaps 1000 in all. But they weren't nicking everyone. Obviously they'd decided to play it cool, maybe they'd noted from Bash The Rich that our bark is much worse than our bite. No, what shocked me was the sheer wealth displayed with such arrogance, living in the ghetto you forget it a bit...I had never seen anything like it! They had these special Enclosures, swanky Clubs, bars restaurants and reserved carparks for each fucking layer of the Upper Class, the object being to flaunt your wealth and status in the face of your Lessers! The cheapest area was the Stewards Enclosure, only £50 for a ticket! (The Henley Gazette said this

proved it wasn't just for the Rich!). The higher Clubs had reserved parking, room to show your rich car and set up your tables full of Champagne and Silver. You couldn't get anywhere near the Royal Enclosure, if you looked straight you could get as far as the car parks, if you were suspect you got turned back at the police lines, if you looked punky you could hardly get across the fucking bridge. It was hot and packed with rich and pseudo rich, every pub was still closed, so we walked up and down, with all the pigs, watching them eat and drink..what could we do?? The car parks were a good target, though guarded, dozens of tyres were stabbed, one Mercedes was turn-

STOP
HENLEY

ed right over and a Rolls badly smashed up. Then there was the bridge..All the super rich just HAD TO take out their Cruisers and have a champagne party while driving up and down before the envious mobs. The bridge had police lines hemming the pavement on both sides, to stop us blocking it and keep us moving. But lots of people still jeered, spat and threw things at the Rich passing below (Quite a few got nicked this way). One friend of mine claims that he lobbed a big slobbery spit right into someone's champagne glass! At about 3pm a few hundred tried to block the bridge, shouting, jeering and singing before being dispersed. This was the only gathering, and its impossible to say how many we were...I think about 400, half dressed as punks or bikers and half trying to look cool. Around this time came the successful attack on the Tory Club (we missed it), with lots of damage, I spoke to a woman who set papers on fire before fleeing. Back in the town centre arguments and scuffles were breaking out between rich people and the anarchists (we had found the off licence!) I saw people being physically attacked for asking rich people for 10p. There was at least one well dressed gang going round attacking rich people at random and blending back into the crowds. The filth were everywhere, with lookout posts, lines of vans, halls full of reserves and plenty of plain clothes, but they were fairly restrained, and only 53 people were nicked altogether. Half of these had their charges dropped. Of the rest, I know of one £100 fine for damage to a car. Another on bail for ABH to a cop (biting him during an arrest). Another who has to report to the pigsty daily until her trial. Another for Obstruction. Nothing very major really. (Why dont CW have a decent Bust fund?) Not all those nicked were anarchists, two spent the time inside slagging and wanking off in front of women prisoners!

By 8.30pm when we left, 4 from our van had been nicked and taken to Reading. One person nicked was 'allowed to see' leaflets with names and photos of 5 of the CW "leaders" which were circulated amongst the cops. Must be a wind-up, don't they know we dont have leaders? At the huge Reading nick we were told all were being held overnight for a special court, but they started letting people out just after we left.

So what of Henley? A big success I reckon, I didn't do much but I wish I had (got drunk & fell asleep in the sun). Many people were in shock at the sheer arrogant wealth, we weren't tooled up and had to improvise. For example some women pissed in their beer cans (there was no place to piss for proles)

Then they threw it over rich shits..

"Jolly bad show..Throwing beer on us now is it!" said one beautifully dressed couple.

"no, Ha Ha its PISS", our friends replied.

SINK HENLEY SINK HENLEY+

Typical stuff, then there were all the stories of anarchists in too good disguise getting attacked by other ones, and Rich Wakeman getting beaten unconscious, ho ho. So Henley was a good laugh (only good I must say cos they chose not to nick us all) and an eye opener into the power and prestige of our RULERS, above all a brilliant idea.

As we left our comrades banged up in Reading nick for the night and headed back for London, a great fireworks display could be seen in the North sky over Henley. The ruling class were celebrating the survival of their wealth and power.

BED & BREAKFAST BAD AND BREAK UP FAST BAD AND BRICK FAST

Allready evicted B & Bers are moving around the country or into London in search of a roof over their head/ the next B & B. In London the first wave of B & B evictions is expected in August, and it seems that most of those affected by the new laws are unaware of what is going to happen. Many squat and housing activists got involved with HASSL (Homeless Against Social Security Laws) but it proved to be a frustrating and time consuming experience. Apart from Camden HASSL the groups are dominated by well-paid and housed social workers producing stacks of minutes, drawing up complicated constitutions, but have been unable to reach any of the B & B-ers, e.g. Lambeth HASSL have so far not produced one decent leaflet. They are extremely keen on HELPING people with their individual cases, get exemptions etc., in stead of facing it as a collective problem, that must be dealt with by collective action. They get so carried away with it they forget that no one wants to live in a B&B anyway. Some of us suspect that HASSL is discouraging/preventing people to organise. HASSL can only be effective if organised by the B&B-ers themselves- and it's not going to happen this way. Squatters are now trying to reach B&B-ers through leafletting and flyposting DHSS and housing offices and hopefully continue the fight against homelessness in a more direct way: lots of empties, available! HELP YOURSELVES.

Homeless people are being referred to squatters organisations by the local council housing offices all the time.....

SHITE HASSLED IN HARINGEY BRILLIANT

People in Haringey found out that Ted Knight was coming to speak to Haringey council. We were going to go to the council meeting anyway as they were talking about homelessness and the new B & B laws. about 8 of us went along with banners, leaflets and posters. Ted the Shite was sitting really close to us and when he got up to speak we shouted that we hadn't forgotten Effra Parade, and "Who evicts creches". We put up our posters saying that he was a paid thug and involved in corruption. We shouted through most of his speech (which was a scrounge for Lambeth council heroically not setting a rate). On his way out he was bombarded with paper balls. Two of us rushed out and managed to find him waiting for a car outside the Civic centre. We told him that we wanted to talk to him and he said that he was waiting for a car and was busy. We then told him that we knew about his fraud and corruption. He then threatened to sue us for libel, but we pointed out there was nobody to hear us. He

also said that if our filthy paper Crowbar was worth a penny he would sue it for everything that it's got. We then told him that if he'd touch 121 we'd fucking touch him. He asked if that was a threat and we said 'No, just telling what would happen'. He then hurried back to the Civic centre to wait for his car. I think we've shit him up quite well cos now he must think that he can't go out of Lambeth and be free of trouble. If people do this every time he speaks anywhere I'm sure he'll think twice about evicting 121!

Yours in solidarity, Haringey comrades@@@

CHelsea SQUATTERS

Now running for almost a year on Ebury Bridge Rd. Chelsea : a semi-organised squat in aging council block. The block has been emptied of council tenants and is being occupied by about 40-50 squatters in about 30 flats, plus 10 or so families that are short term housing ass. tenants). They are awaiting the sale of the block, late '86-'87 to Barrats to have it converted to private luxury flats. There is a very close community spirit and if mass-eviction does occur (which has been threatened) there is hope that a similar set up can be established elsewhere with a large exodus of squatters if necessary.

TRENDIFICATION

Now the dust has settled in the great Rates Rebellion saga, its time to take stock. Many people are confused as to why Crowbar has not supported the Council in its gallant stand against the Tories. Surely, cry the readership, you don't support ratecapping?

No, we don't. But that doesn't mean we're fooled by the bleating of middleclass Labour hacks about 'jobs and services'. We know what they're on about. Loads of the councils money goes on paying out £10,000 a year to a swarm of 'Community Workers', who, armed with a sociology degree and a labour party card, go around telling us how oppressed we are before sloping off to some trendy wine-bar they saw listed in City Limits.

Loads more goes on stupid tarting up of Brixton, to make an environment these parasites can feel comfortable in. (Its just like Isling-ton my dears, but so much more ethnic!)

Painted railway bridges, ridiculous red paving stones, and in a project reminiscent of the Tsars of Russia, facelifting Electric Avenue without touching the squalid interiors of the flats inside.

These are services we can do without.

Yes, the inner cities need facilities, but they should be run by the working class, not by a bunch of alternative commissars, whose response to initiatives taken by the community is to destroy whatever they cannot gain control over. If the money paid out on the salaries of these 'upwardly mobiles' (so called because scum always rises to the top) was given to the plain people of Lambeth, to do up their estates, set up nurseies, social centres workshops etc, we'd be getting somewhere!

In the last analysis, rates, like taxes, are just legalised extortion. WE have no control over how they're spent, just as we have no real control over our lives and our area. Struggles between different factions of the owners are a diversion from the struggle to gain that control.

A squatters association has been formed on the Nightingale Estate to support squatters facing eviction and force the council to get their head out of the fucking sand and put their thousands of homeless into their thousands of empty homes. Initial response from the Council: 'We don't condone squatting' so there you are: - no care from 'radical, socialist' Hackney that people have to live on the streets.

We would like to meet other squatters/ squatting - groups and fight the council together. Contact us through ASS or 5 Olympus Sq. on the estate (day) or 84 Farnell Point ditto.

HOMELESSNESS

It can also have some pretty nasty effects on your life. All of which you can start suffering long before you become addicted.

You'll probably start looking ill, losing weight and feeling like death. you'll begin to vote not to get high any more, but just to feel normal.

And, as you lose control of your future, you could lose control of your mind too.

Until one day you'll wake up knowing that, instead of you controlling the government, it now controls you.

So, if a politician asks you to vote for him, use your brain while you still can. And say no.

GOVERNMENTS REALLY SCREW YOU UP.

AS WE GO TO PRESS, AT SEVEN O'CLOCK THIS MORNING THE CRECHE WAS EVICTED.....

KIDS EVICTED.....PIGS CARRY OUT TED KNIGHTS DIRTY WORK.

Today, 24th July, 85, the Creche at 24 Brailsford Road was evicted, by order of Ted Knight leader of Lambeth Council. They came without warning, vanloads of police, housing staff and hired thugs. The 'moles' failed, the alarm failed. By the time we arrived the police had sealed off the area and the bailiffs and workers were throwing kids toys, creche equipment and personal belongings into the street.

STUNNED SQUATTERS LOOK ON.

A brutal and senseless eviction of a successful self help scheme by desperate young and single mothers. We stood around stunned as the bailiffs and cops laughed in our faces!

We never quite believed they would do it again, after all the publicity, petitioning, and demonstrations. They had evicted the place on 19th April illegally but it had been resquatted. But this time there will be no resquat, the council has given it to a religious group (Moslems) who immediately had their women moving in stuff and scrubbing the place. What a brilliant piece of Divide and Rule!

SMILING PIGS DO TED'S DIRTY WORK

KIDS PLAY AMID DEBRIS OF EVICTION

We didnt believe they would do it, barricading had been held off as it would ruin the Creche, but was due, ironically to begin today.. There were no negotiations, no chance of rehousing..the Creche is homeless and the kids have nowhere to play. So this is the true face of the 'socialist' Lambeth Council, the Labour Party that CARES to send in their riot police and bully boys against our kids!..So much for promises. So much for lobbying and the 'right channels'. The time has come for us all all to unite and fight back. We will squat another place for the Creche..and we will never let Ted Knight forget this day!.....
