

**NO CTA SERVICE CUTS!
NO LAYOFFS OR FIRINGS!
NO FARE HIKE FOR ANYONE!**

Protest at **CTA President**
Frank Kruesi's house

The Chicago Transit Authority is planning massive cuts to bus and "L" service as well as lay-offs of over a thousand CTA workers. In December, under pressure from angry riders and workers, they agreed to delay the cuts for six months. The CTA claims that they need more money from the State government to continue their operations, and are hoping to get that money when the new legislative session begins in Springfield. If they don't get the money, they have already said that they will go ahead and cut service, raise fares, and fire workers. They will dump their budget crisis on our backs.

At the same time that we'll be waiting longer and paying more for the bus, CTA and the city are spending billions of dollars on building the new Circle Line. When our night and weekend service is cut we'll be wondering how to get to work, home from the bar, or from church, while Kruesi and company will be pouring money into the Block 37 superstation and express trains to O'Hare and Midway. While we're struggling to survive, the CTA board is increasing their own pensions and increasing spending on the office of President Frank Kruesi.

We can't stand around quietly at bus stops and train platforms wondering why the politicians and the union leaders aren't standing up for us. We've got to get together and fight for ourselves--
at this point its *fight or walk!*

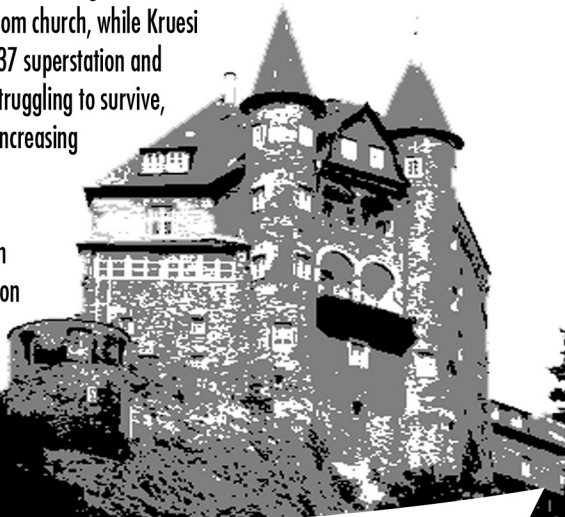

SATURDAY, APRIL 9 at 1 PM

Gather at Hollywood Park- Peterson Ave + Jersey (Kedzie), then march to Kruesi's house (3252 W. Victoria).

transportation: take Brown Line to Kedzie and walk 15 blocks north, or take #82 Kedzie bus to the park.
