BLAME FOR CENTRALIA TRAGEDY

EXEMPLARY across the fact that EVERY case against all I. W. W. in the state of Washington has resulted in acquittal and dismissal after JUDICIAL trial in the last ten years, the publicity department of the Organized Industrial Capitalists of this section of the country—mainly through the Seattle Times and the Post Intelligence—have used every legal and illegal means to frame up the I. W. W. They have resorted to all the usual and unusual forms of misrepresentation, and their hireling writers have worked overtime going out of their way to slander the workers in order to get away from their employees that they might still retain their jobs. These "publicists" are either paid any "news" of the dismissal of all cases against the hundreds of I. W. W. held in jail at the end of Washington. We hereby broadcast this information in small type in obscure offices of their filthy, mendacious mongrel sheets.

But there were "good" times coming for the cowards who exploit the value of the workingman who fought in the war to make capitalism safe from working class democracy. The owner of the Times, although hearing the title of "socialist," did not win this title on the field of battle. If those who claim to be in the "know" are correct in their allegations, this noble warrior won his "spurs" by the route of the hangman table where the word "bully" is spelled with an "o." He is not a statesman in a small wage called "socialism." No one will be killed by that.

There is also no record of the military career of the editor of the Post-Intelligencer, who is just as bloodthirsty as the "gallant colonel" when uncertain professional propagandists are killed—and a killer would be wrong.

These sheets are always free of the dirty work, and they do it in the name of "patriotism." It is well known what a mass named "Peace" is to mean to the workingman. The following is continued on page 4.

BODY DRAGGED ON PAVEMENTS OF CENTRALIA

ATTEMPTS TO TERRORIZE MEN BY INHUMAN ACTS ON EVERETT'S BODY

Out in the Northwest there has been a tragedy which has shaken the nation. At Centralia, Wash., it has unleashed a normal of horror which is beyond description. Throughout the state of Washington it has been a signal for mob brutality and lawlessness which has made a terror of the people of the state, and in which the victims have been charged with treason and murder. The state has established a special police force, and has prohibited the circulation of all newspapers which attempt to cast a slur on the actions of the authorities.

The dead body of the man who was hanged was identified as John A. Clark, a prominent member of the Socialist party. He was an active supporter of the union movement, and was killed by a mob of anti-unionists.

The body was found on the outskirts of the town, and was taken to the hospital for an autopsy. The cause of death was asphyxiation, and the body was immediately turned over to the coroner for identification.

The coroner's report stated that the body had been tortured before being executed. The body was found with its hands and feet bound, and its mouth gagged. The body was then set on fire, and the flames consumed it. The coroner's report stated that the body had been-asphyxiated before being executed.

The will of the late John Milburn has been probated. The amount is $244,350, to be paid in four equal installments in a mine.

CRAZED CAPITALISTS
An indication of the cruel condition of the men in charge of the Sitwell was shown the day after the strike when 1,100 miners were shot dead in the town. The shooting was done by the police with the aid of the miners. The police deliberately shot the miners during their lunch hour, killing 1,100 of them. The miners have refused to work since then.

The strike was a direct result of the failure of the company to pay the men their wages. The company claimed that it was unable to pay because of the strike, and the miners continued to work without pay. The mine owners then decided to use force to keep the miners out of work, and the police were called in to do the job. The police did not use any restraint, and the miners were killed.

The strike has now spread to other mines in the area, and the miners are determined to continue their work until they are paid.

This strike is a direct result of the greed of the mine owners, who are only interested in making money at the expense of the workers. The miners are fighting for their rights, and the rest of us should support them in their struggle.

It is time that we all stood up and said that we would not tolerate such treatment of our workers. We must demand that the mine owners pay their workers fairly, and we must support the miners in their fight for justice.

The world is watching, and we must not let the mine owners get away with this. We must stand together and demand justice for the miners.
