Here is a shout out to fellow west coast conspirators for some good ol' fashion insurrection! Its a time of crisis, but it sure don’t look like one yet! So get going and bring it on, because we are the crisis! This is a call for a competitive occupation to get things started: this will be called the Game. And this game never fucking ends!

Look at everything that is happening around us. Where are existing sites of antagonism? Budget cuts? Foreclosures? Or even bare basic needs? SEIZE IT! We can have it all, if we just take it!

Destroy the old, create the new! Transform spaces into a site of building a collective synergy of desires. Produce tactical & strategical activity, in which things are produced - propaganda, dance parties, networking, plans for further action, etc. Experiment & overtake. Don’t merely preserve - MULTIPLY, EXPAND, & TAKE OVER THE METROPOLIS!

Demand nothing, occupy everything! AND MAKE IT SICK AS FUCK!

HOW TO PLAY

ACTIVISTS

ONLY PRESERVED THE WORLD, THE POINT IS TO DESTROY IT!

TAKE WHAT IS OURS BECAUSE EVERYTHING IS OURS
